# LED Smart Lighting

# Factory

# Office

# Why choose us

- Rich experience in LED lighting produces, professional for smart lighting designing and producing.
- Full range of smart lighting products. One-stopped selection for better suppliers management.
- Very competitive price with high quality products.
- Standards compliance expertise including product compliance to many standards and approval support
- High-volume manufacturing, committed to the highest quality standards

We are committed to supporting your success

# Product Range

more than what you see....

# Functional Introduction

Works with  
**IFTTT**

 **WiFi**  
NO HUB REQUIRED

CCT+Dim Mode

Color Mode

Scene Mode

**WiFi/Bluetooth:** Works through your home WiFi network or by bluetooth. No hub, no subscription & no hassle

**Smart device:** Use the Smart app on your smart device to control all your Smart products. Available on iOS & Android

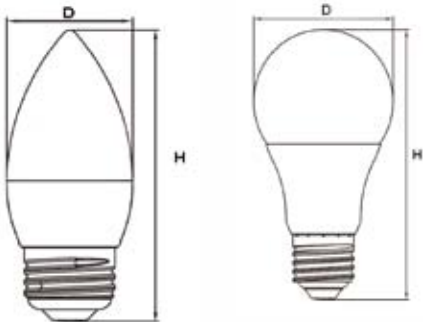

**Smart schedules:** Set smart schedules to control your lights automatically. Turn on at sunset, or off at midnight

**Voice control:** Control with your voice using Amazon Alexa or Google Home. "...turn the lights on"

**Control from anywhere:** Control or check the status of your lights from wherever you are in the world using your smart device

**Lighting:** Create the perfect atmosphere for any occasion, in any room. Colour changing or standard white light

## HOW TO SET UP YOUR FREE SMART LIFE MOBILE APP

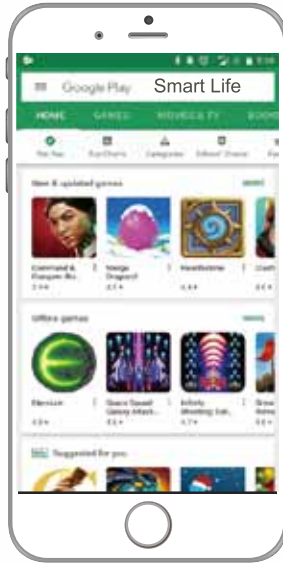

Go to the App Store or Google Play and search for the Smart Life app named:  
**Smart Life**

For Apple press  
**'Get'**

For Android press  
**'Install'**

**SCAN QR CODE**

**Scan the QR code:**

iPhone – use your phone's camera and hold over the QR code.

Android – use a google lens app or a barcode reader and hold over the QR code.

Click on the link that appears then Open/Install the App.

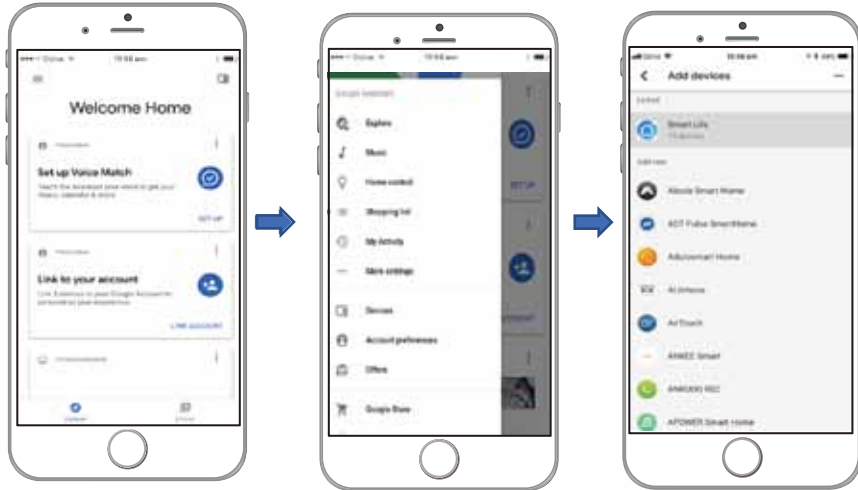

The App opens and to press 'Allow' to receive notifications.

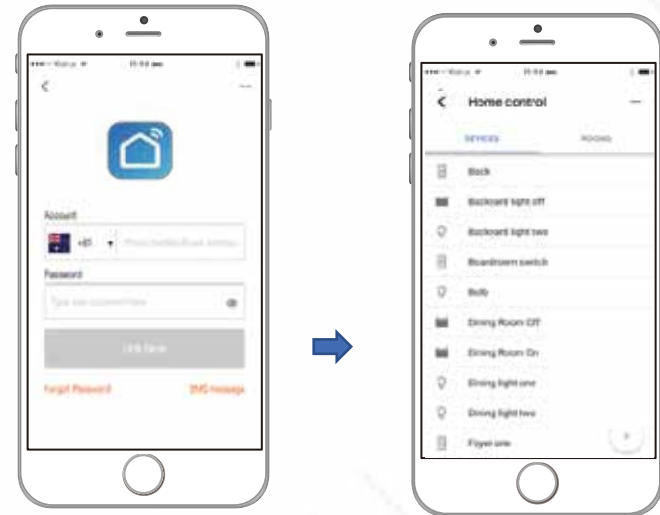

# HOW TO CONNECT TO GOOGLE HOME CONTROL

Note: Your Google Home Account must be set up prior to linking it to Smart Life App.

1. Launch your Google Home Control App.
2. Tap on menu in the top left hand corner.
3. Tap on Home Control.
4. Tap on the + icon on the bottom right corner.
5. From the list, scroll down and tap on the Smart Life App.

6. Log into your Smart Life App with your Smart Life account login and tap "Link Now".
7. You will then need to tap on 'Authorise'.
8. Once linked, it will show your connected devices which you will need to assign them to rooms.
9. When linked successfully, you will see connected devices in your Home Control screen which you can now control your Smart Life devices with your voice.

# HOW TO SET UP VOICE CONTROL ON YOUR PHONE

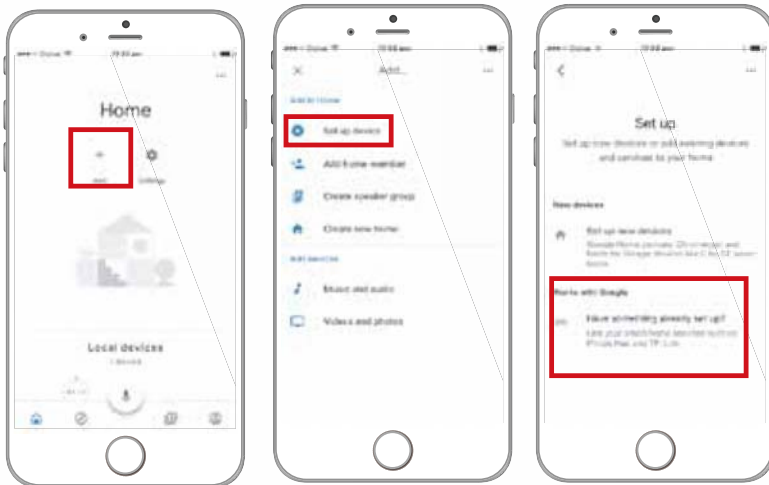

Complete these steps first:

- Smart life App setup and connect to smart device.
- Setup a google/gmail account.
- Download the Google app and setup.

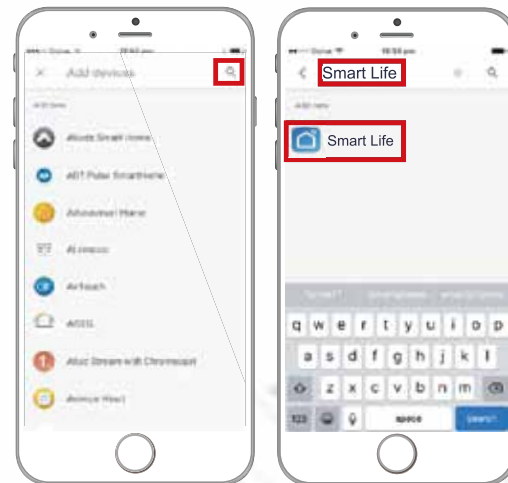

You'll need to have completed the setup of your Smart life app, connected your smart device then downloaded and setup the Google Home App. This will allow you to control your smart devices via voice on your phone.

Open the Google Home App  
Select **Add '+'**  
Press **'Set up device'**

Select **'have something already set up?'**

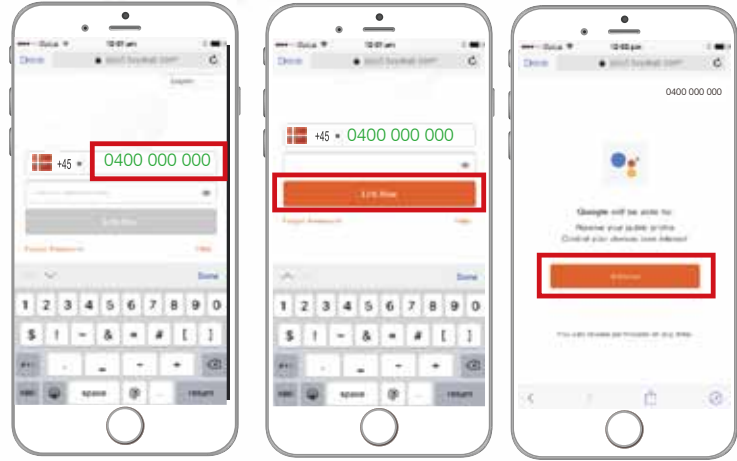

Search or scroll down to find **Smart Life** and select

Select Denmark and type in your mobile phone number.  
Then type password and press 'Link Now'

Press 'Authorise'

Return to the home page.

You're ready to control your smart device by voice.

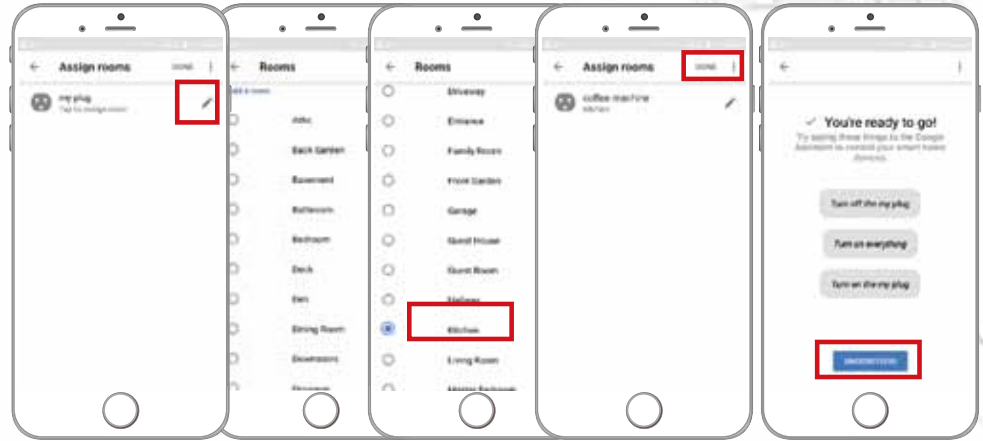

Hey google  
turn on my coffee machine

Okay google  
turn off my coffee machine.

The smart device should now appear – you can now assign a room. Press the 'Pencil' icon  
Scroll until you find the room you want to add the device to, select and press the room.

The device is now added to your specified room. Press 'understood' to finish.

Go back to the home page and  
you are ready to turn your device  
Off or On.

You can do this manually

# HOW TO CONNECT TO AMAZON ALEXA

Note: Your Amazon Alexa Account must be set up prior to linking it to Smart Life App.

1. Launch your Amazon Alexa App
2. Tap on menu in the top left-hand corner
3. Tap on 'Skills and Games'
4. Search for the "Smart Life" App and enable it
5. Log into your Smart Life Home account with your email address or mobile number and tap on "Link Now".
6. You will then need to tap 'Authorise' to receive your profile and control your devices over the internet
7. Once it is successfully linked, Select 'Discover Devices' and the app will begin searching for your Smart Life product.
